EDUCATION

Software Engineering Immersive
General Assembly Australia
(Apr - Jul 2022)

Product Management
General Assembly

Masters in Philosophy
Catholic University of Argentina

LATEST PROFESSIONAL EXPERIENCE

Graduate Software Engineer. Australia (April 2023-Present)
Compass Education, Australia

- Full-Stack development in **C#** and **.NET**. **React**, **EXT.js**, **SQL** and **Mongo**
- Building **full-stack** solutions for business problems, Defect fixing, new features, code enhancement/refactoring, CI scripting and testing.
- Fluid communication with cross-functional teams in an **Agile** environment. **Onboarding** and **mentoring** interns.

Instructional Associate. Australia (Aug 2022-Jul 2023)
General Assembly Australia

- Review student's homework and manage projects using Git, giving **feedback** on **best coding practices** and **clean code** production
- Provide **support** and **coding lab sessions** to a 15+ student class
- **Keep track** and report to the instructor each student's **individual** and **collaborative progress**, achieving a 100% student success rate

QA & Linguistic Tester - Remote (Feb 2016-)
TransPerfect - *Freelancer*

- Testing of EN-ES localized pages searching for layout, functional and linguistic discrepancies and bugs with a 99.8% success rate
- **Compliance** with **company guidelines** for bug reporting through Jira
- Maintain a **stable workflow** under pressure delivering E2E QA testing with tight deadlines

University Lecturer / High-School teacher. Argentina
(Mar 2017- Feb 2022)

Catholic University of Argentina / St. Catherine's Moorlands School

- Created and delivered 15+ fun and **engaging** courses in philosophy, **logic**, **ethics** and **technology**, and **public speaking**
- Made use of **assertive communication** and **good explanations** to help the students, dramatically decreasing class desertion
- **Inspired** students with examples and **leadership** while **multitasking** in one of the most complex environments: a high-school classroom
